

From: SC22/WG2 - Pascal
To: SC22/WG11
Subject: LIA bindings to Pascal and Extended Pascal
Date: April 22, 1994

At its April 1994 meeting, WG2 passed the resolution:

"Whereas it appears unlikely that sufficient national member bodies will vote to participate in WG2's proposed new work item for LIA Bindings to Pascal and Extended Pascal:

WG2 resolves to make all the information so far gathered or produced on this project, available to:

- (a) WG11, in case they may have more success with a proposal, or may wish to incorporate the material into any of their documents;
 - (b) X3J9, in case they may be able to produce an American National Standard for these Bindings.
- "
