Open Systems Environment Implementors Workshop  
(OIW)  
Open Systems Environment-Technical Committee  
(OSE-TC)

TO: SGFS

FROM: OSE-TC 

SUBJECT: Liaison Statement on Issues 30 and 31 from SGFS/N763

At our meeting in June 1993, we considered the above noted issues and offer the following comment:

**Issue 30: The relationship between OSI and OSE.**

OSI is a specialized subset of OSE [IEEE P1003.0], as reflected by the fact that OSI profiles are a subset of OSE profiles.

**Issue 31: The Scope of OSE profiles.**

Profiles which includes standards for interfaces associated with portability and interoperability of applications, data, and people.

The OSE community has developed a set of fundamental objectives which are in widespread use. It is these objectives that define the scope of OSE and definitions that change that scope are inappropriate.
