**	Foreword		ed	WGs are not mentioned in the Foreword of International Standards.	Delete last sentence of Foreword or move it to the introduction.	1. Moved as recommended.
**	Introduction		ed	6.6.7.2 of the ISO/IEC Directives, Part 2, states that for references to the document as a whole in its own text, the form "this International Standard" shall be used, except in the introductory texts for the "Normative references" and the "Terms and definitions" and in any patent notices.	In the introduction, change "this Standard" to "this International Standard".	2. Changed as recommended.
**	Clause 1		ed	Scope shall only describe the content of the document. It shall not contain recommendations ("should") or requirements ("shall").	Move commentary about the technical content to the introduction (e.g. 1.1, para. 2; 1.3, para. 2). Subclause 1.5 could be moved to Clause 3, retitled "Terms, definitions, symbols and namespaces". Move requirements and recommendations elsewhere in the document (e.g. 1.4, paras. 2,3).	3. All Clause 1 commentary, requirements, and recommendations moved elsewhere as recommended.
**	Clause 1		ed	International Standards specify and define, rather than describe.	Replace "describe" with "define".	4. Replaced "describe" throughout Clause 1 by "specify" (since "define" is itself a technical term in the context of the C++ IS).
**	Clause 2		ed	In accordance with 6.2.2 of the ISO/IEC Directives, Part 2, documents which are only cited in an informative manner shall not be included in the Normative references. ISO 31-11 and IEC 60559 are not referred to in a normative way and also appear in the Bibliography.	Remove ISO 31-11 and IEC 60559 from the Normative references.	5a. Removed IEC 60559 as recommended. 5b. ISO 31-11 now normative as intended; see item 7 below.
**	Clause 2		ed	The Normative references are incorrectly presented. The full identifier (ISO or ISO/IEC) shall be given, along with the title in italics.	Redraft the Normative references according to the following example: ISO/IEC 2382-1:1993 – <i>Information technology – Vocabulary – Part 1: Fundamental terms</i>	6. Redrafted as recommended.
**	Clause 3		ed	The title does not accurately reflect the content of the clause.	Change title to "Terms and definitions".	7. The title is accurate after restoring an intended reference to ISO 31-11.

**	Bibliography		ed	Documents referred to in a normative manner shall appear in the Normative references, not the Bibliography.	Remove references [3], [4], [5], [6], [7] and [8] from the Bibliography.	8. Removed as recommended.
**	Bibliography		ed	The date to reference [9] is incorrect, and the title is incomplete. The date to reference [10] is incorrect, as is the title.	Change to: ISO/IEC TR 19768:2007 – <i>Information technology – Programming languages – Technical Report on C++ Library Extensions</i> ISO/IEC 24747:2009 – <i>Information technology – Programming languages, their environments and system software interfaces – Extensions to the C Library to support mathematical special functions</i>	9. Changed as recommended.
**	General		ed	Line numbering is not used in International Standards.	Remove the line numbering throughout the document.	10. Only paragraphs are numbered, not lines.
**	General		ed	International Standards do not insert blank pages between clauses.	Delete blank pages.	11. Deleted as recommended.
