SC21/WG6 RPC Rapporteur Group would like to thank the members of SC22/WG11 for holding their meeting together with us in Arles. This was a very fruitful meeting in resolving the relationship between the RPC IDN and the CLIDT/CLIPCM documents, as well as resolving many open technical issues.

As we agreed that there will be separate "IDNs" in each of the three documents (RPC, CLIDT, & CLIPCM) but that these IDNs will be compatible, we look forward to maintaining a continuing dialogue as these documents progress.

Attachment A is our third working draft. We believe that the sections on the interaction model as well as the IDN will be of special interest to you.
