CHANGES TO GUIDE FOR ITU-T AND ISO/IEC JTC 1 COOPERATION

2 Organizational Structures

(Update Table 2 to reflect decisions of the December 1996 meeting of JTC 1)

Appendix II

(Replace 6.3 of Appendix II with the following text)

6.3 Introduction (optional)

The Introduction is optional. If present, the content of this element is provided by the individual organization and may contain common or individualized information or commentary about the content of the Recommendation | International Standard and about the reasons prompting its preparation. It shall not contain requirements.

The ISO/IEC Introduction may also contain information about specific patents associated with the Recommendation | International Standard. Such patent information will not be present in the ITU-T Introduction; instead, information on patent statements submitted to the ITU-T can be found in its database accessible from the Internet at the following World Wide Web address: *http://www.itu.int/ITU-Databases/TSBPatent/*

Annex B

(Replace Annex B of Appendix II with the following text)

Annex B

Referencing Recommendations
(This annex forms an integral part of this Recommendation | International Standard)

As a consequence of a reform process within the International Telecommunication Union (ITU), the CCITT ceased to exist as an organization on 28 February 1993 and in its place the Telecommunication Standardization Sector within the ITU has been created. The following rules are given to help editors of common text in making correct references to Recommendations.

a)   for references in the normative reference list:

   1)   previously existing CCITT Recommendations not modified on or after 1 March 1993 will continue to have the prefix "CCITT", e.g.,

   "CCITT Recommendation X.92 (1988), *Hypothetical reference connections for public synchronous data networks*"

   "CCITT Recommendation X.614 (1992) | ISO/IEC 10732:1993, *Information technology — Use of X.25 Packet Layer Protocol to provide the OSI connection-mode Network Service over the telephone network*"

   2)   previously existing CCITT Recommendations, modified and approved on or after 1 March 1993 will have the prefix "ITU-T", e.g.,

   "ITU-T Recommendation X.96 (1993), *Call progress signals in public data networks*"

"ITU-T Recommendation X.200 (1994) | ISO/IEC 7498-1:1994, *Information technology — Open Systems Interconnection — Basic Reference Model: The Basic Model*"

3) new Recommendations approved on or after 1 March 1993 will have the prefix "ITU-T", e.g.,

"ITU-T Recommendation X.6 (1993), *Multicast service definition*"

"ITU-T Recommendation X.802 (1995) | ISO/IEC TR 13594:1995, *Information technology — Lower layers security model*"

b) for references within the text

1) When using the expression "Recommendation | International Standard", do not use a prefix before the word "Recommendation"

2) When referencing a specific Recommendation or Recommendation | International Standard, a prefix is used following the rules in a) above, e.g.,

"CCITT Rec. X.92"

"CCITT Rec. X.614 | ISO/IEC 10732"

"ITU-T Rec. X.96"

"ITU-T Rec. X.200 | ISO/IEC 7498-1"

"ITU-T Rec X.6"

"ITU-T Rec. X.802 | ISO/IEC TR 13594"
