Resolutions of the ISO/IEC JTC 1/SWG on Registration Authorities (SWG-RA)  
21 September 1992, New York City

1. The JTC 1/SWG on Registration Authorities recommends to the JTC 1/SWG on Procedures that the text of Annex H of the Proposed Modifications to the JTC 1 Directives (JTC 1 N 1838) be modified to incorporate the text contained in JTC 1 N 2109. In addition, a note following section 1.4 should be added as follows:

Note: The application of these requirements to registration performed in ISPs is currently under review by SWG-RA and SGFS.

The SWG-RA further recommends that these modifications be incorporated into the Phase I revision of the JTC 1 Directives.

2. The JTC 1/SWG on Registration Authorities authorizes submission of the liaison statement shown as JTC 1 N 2128 to the JTC 1 Special Group on Functional Standardization.
3. The JTC 1/SWG on Registration Authorities instructs the JTC 1 Secretariat to maintain a current catalogue of published and proposed ISO/IEC JTC 1 standards requiring organizational Registration Authority assignments and brief descriptions of the items of registration.
4. The JTC 1/SWG on Registration Authorities requests ISO/IEC JTC 1 to invite "P" members to appoint a Registration Authorities Rapporteur for JTC 1 activities. JTC 1 National Body Registration Authority Rapporteurs are to serve as focal points within their National Bodies and to serve as a contact point for the SWG-RA.
5. The JTC 1/SWG on Registration Authorities requests its Secretariat to contact established JTC 1 Registration Authorities to elicit comments on items which might be of value for inclusion in a "Guidelines" document for Subcommittees preparing a standard containing requirements for registration.

Comments received will be distributed to the SWG-RA for review and preparation of the Guidelines document.

6. The JTC 1/SWG on Registration Authorities requests its Secretariat to initiate a call for National Body contributions regarding operation of the JTC 1/SWG-RA, taking into account the responsibilities contained within Annex H of the JTC 1 Directives. Only National Bodies represented at the September 21, 1992 meeting of the SWG-RA in New York City will be asked to submit contributions at this time. The Secretariat shall compile and re-circulate responses received; these comments shall be addressed at the next meeting of the SWG-RA.

7. The JTC 1/SWG on Registration Authorities recommends to ISO/IEC JTC 1 approval of the assignment of Registration Authority responsibilities for ISO/IEC 10036 "Information Technology - Procedures for registration of glyph and glyph collection identifiers" to the Association for Font Information Interchange (AFII).

The SWG-RA requests the JTC 1 Secretariat to initiate a JTC 1 letter ballot on this proposed assignment as soon as possible.

8. The JTC 1/SWG on Registration Authorities reviewed the text of JTC 1 N 2055, "DIS Ballot Text for ISO/IEC 11576 'Information Technology - Procedures for the Registration of Algorithms for the Lossless Compression of Data'" and confirms that the registration procedures contained in this document meet the criteria as identified in Annex H of the JTC 1 Directives for publication as a procedure standard.
9. In an effort to reduce undue expense related to international travel, the JTC 1/SWG on Registration Authorities agrees to meet again within one year at a time and place convenient to the next meeting of the ISO/IEC JTC 1/Special Working Group on Procedures (SWG-P).
