Networking TS - Editor's Report

History

This is the initial working draft for the Networking TS, based on P0112R1, Networking Library (Revision 7), by Christopher Kohlhoff.

There are a number of formatting issues, especially in tables, which will be corrected in the next draft.

Acknowledgements

As well as writing the original proposals Chris Kohlhoff also did most of the conversion to LaTeX, without which this draft would not have been ready for Jacksonville meeting.
