**	Title	TYPESET TING	ed	"Information technology" missing as the first element on page 1.	Change title to the following: Add "Information technology -- " before "Document Schema Definition Languages (DSDL)"	
**	Introduction	RICK: done	ed	ISO/IEC 19757 series is incorrectly referenced as "this International Standard".	Reference the whole series as "ISO/IEC 19757" throughout the document. Reference Part 3 as "this part of ISO/IEC 19757" everywhere except in introductory paragraphs to Clauses 2 and 3. Reference other parts as ISO/IEC 19757-x.	
**	Introduction and scope	RICK: done	ed	The sixth paragraph, including list items, describes the content of the document, which properly belongs in the scope. In turn, paragraphs 2, 3 and 4 of the scope provide general background, therefore belong in the introduction.	Redraft sixth paragraph of introduction as a single paragraph without list items, omitting references to specific clauses/annexes, and incorporate in the scope. (Remember that the scope should be usable as an abstract for bibliographic purposes.) Move paragraphs 2, 3 and 4 of the scope to the introduction.	
**	2	RICK: done (added not replaced)	ed	Incorrect standard introductory paragraph.	Replace introductory paragraph with the following: The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.	
**	2	RICK:	ed	Multiple paragraphs not permited before	Convert second paragraph to NOTE	

		done		reference list.	style.	
**	3	RICK: done	ed	Standard introductory paragraph not present.	Insert "For the purposes of this document, the following terms and definitions apply" between 3 and 3.1.	
**	3	RICK: Notes changed "A" not yet	ed	Incorrectly drafted	**3.1** **abstract pattern** a pattern in a rule ... . . . **3.17** **query language binding** named set, specified ... Schematron implementation NOTE 1 Schematron is defined ... possible. NOTE 2 6.4 specifies ... Schematron.	
**	General	TYPESET TING	ed	Notes are numbered only if there is more than one per numbered element of text (i.e. per subclause, sub-subclause, etc.).	Remove all note numbering.
