Proposed Taxonomy Changes for EWOS EG VT January 1992

Title: Proposed Taxonomy Changes for EWOS EG VT

Date: **January 9th 1992**

1.   During the processing of pDISPs 11184-1 and 11187-1 and harmonisation of pDISPs 11184-2 and 11187-2 (S-mode Forms and Paged profiles), it has been agreed amongst the regional workshops that the Waiting Time CO specification be removed from the VTE-profile specifications and registered in ISP 11185 series. This agreement causes a modification to both the TR10000-2 taxonomy and the M-IT-02 taxonomy.

2.   The specification of the Printer CO has already been approved as a work item for EWOS EG VT. However, assignments for it in the TR10000-2 taxonomy and M-IT-02 taxonomy have not yet been made.

3.   EG VT has submitted three items to be included in the EG VT programme of work for approval by EWOS TA. These are the specification of three Contol Objects which will require entries to be allocated in the M-IT-02 and TR10000-2 taxonomies.

The following taxonomy and ISP number allocations are proposed.

CO Name	M-IT-02 Entry	TR1000-2.2 Entry	ISP Number
Waiting Time CO	F/VT 2 1 11	FVT 2 1 11	11185-13
Printer CO	F/VT 2 1 12	FVT 2 1 12	11185-14
Field Definition Management CO	F/VT 2 1 13	FVT 2 1 13	11185-15
Terminal Signal Titles CO	F/VT 2 1 14	FVT 2 1 14	11185-16
Form Help Text CO	F/VT 2 1 15	FVT 2 1 15	11185-17
