CN			G	1. Considering the market relevance, ODF should be integrated with China national standard final draft — Unified Document Format (UOF) as much as possible, as well as Microsoft's Open XML Format.		
CN			T	2. XSLT Style sheets should be provided to facilitate the conversion among the mainstream document formats.		
CN			T	3. UNO implementation of ODF should conform to CORBA specification.		
CN			T	4. ODF in W3C schema should be provided in addition to RelaxNG specification.		
CN			T	5. The document structure should be described by means of hierarchical elements for better extensibility, whereas the current version uses too many attributes.		
CN			T	6. ODF should add in support for user defined XML data.		
CN			T	7. Different compression algorithms should be adopted according to different media types appeared in the content rather than using ZIP only.		
CN			T	8. Extension facilities should be provided
