23 Aug 89

MAILING OF N094 THROUGH N096
ISO/JTC1/SC22/WG14

To all members of WG14:

Accompanying this letter (N096) are an up to date document registry for WG14 and documents N094 through N095.

To summarize current status:

- o The balloting for DP9899 closed with no 'no' votes. Consequently, I have submitted it to the SC22 Secretariat for DIS balloting. Four member nations voted 'yes with comments.' The comments included a number of suggested editorial changes, plus the request for an addendum that we expected from the U.K. I am submitting all of these to X3J11.
- o The X3J11 standard has been approved by X3, but one individual has filed a protest on procedural grounds. Even if his protest is not upheld, ANSI cannot adopt the standard until around the end of the year. Consequently, the X3J11 meeting scheduled for September '89 has been cancelled. The next meeting will be in New York City, 5-6 March '90.
- o A Numerical C Extensions Group has formed and is expected to apply for status as a subgroup of X3J11. Please contact me if you want to learn more about their activities.

At the moment, I have no guidance for when to convene any additional meetings of WG14. If you feel that another meeting is warranted, please let me know where and when you think it would be appropriate and what topics should be on the agenda.

Sincerely,

P.J. Plauger, WG14 Convenor
398 Main Street
Concord MA 01742
