Title: ISO/IEC JTC 1 Special Group on Functional  
Standardization

Secretariat: NNI (Netherlands)

Title : BSI comments on TR 10000-2.3

Source : BSI, Mr. P.A. Jenkins

Status : Discussed during the SGFS Authorized Subgroup Meeting,  
December 1992, London

Note :

Title: Comments on TR10000-2.3  
Source: P A Jenkins  
Date: 30/11/92

Having read TR10000, I wish to make the following 3 editorial comments. As indicated at the IST/-/2 meeting these comments are offered to the UK delegation to Tier 3 of the 8-11 Dec meeting for use as appropriate.

**Clause 1, Last Paragraph**

Rationale: The directory relates to the profiles submitted to JTC 1, not to all the potential profiles that can be identified by the Taxonomy.  
Proposal: Replace "Profile in the Taxonomy ..." with "Draft Profile submitted to SGFS ..."

**Clause 4.2, 2<sup>nd</sup> Paragraph**

Rationale: The type of Network Service is an issue considered when creating groups, it does not impact the class to which a profile belongs.  
Proposal: Delete "... over the two modes of Network Service, and ..."

**Clause 4.2, 6<sup>th</sup> Paragraph**

Rationale: JTC 1 is not addressing the issue of relaying between systems operating T- and U- profiles. Thus the statement made should be aligned with the text of Special 2 in clause 4.5.1.5.  
Proposal: Replace the 2nd sentence with "Interworking between T- and U- profile classes is not contemplated in any JTC 1 work"
