A SGFS ballot resolution meeting on DTR 10000-2 was held during the plenary meeting June 1995 of JTC 1/SGFS. The Ballot Resolution meeting was part of the agenda (SGFS N1268).of the June 1995 JTC 1/SGFS.

Tables of National Body ballot replies and comments are contained in JTC 1 N3558 (SGFS N1277).

All National Bodies present agreed that their comments were adequately considered and resolved. Agreement could be reached that the editor should produce the final text for publication, based on the revisions agreed and reviewed in Berlin.

It is believed that comments from National Bodies not present at the ballot resolution meeting have been adequately considered and resolved.

The following National Bodies were present at the ballot resolution meeting: France, Germany, Netherlands, Japan, UK, U.S.

Furthermore all National Bodies supported to include several harmonized taxonomy entries in the edition of TR 10000-2 to be published. This was also supported by the representatives of the S-liaison organizations EWOS, OIW and AOW.

The annexed table summarizes the comments received and their resolution.

This supports progression of DTR 10000-2 as the fourth edition of TR 10000.

SGFS agreed (Resolution 2, Berlin June '95) to request that ITTF be asked to publish TR 10000-2, based on SGFS N1283.
