

Resolution 11 PAS Transposition and Normative Referencing

In accordance with Paris resolution 11, JTC 1 encourages and invites its SCs/SWGs and NBs to identify candidate PASs and actively work with the relevant potential PAS submitter to promote these PASs within JTC 1.

JTC 1 recognizes that an open, positive attitude of its SCs and WGs towards potential PAS submitters and their contributions is vital for the success of the PAS process.

JTC 1 reminds its SCs that as part of the PAS process, as described in N 3582, it has offered SC counsel to PAS submitters. Therefore, JTC 1 encourages its SCs to assume, to the extent possible, an open, positive attitude towards Recognized PAS Submitters and their potential contributions, and requests the SCs to duly provide any counsel requested.

In addition, SCs are strongly encouraged to identify potential PAS submitters which could make valuable contributions to the SC work, and to approach them pro-actively.

Recognized PAS submitters are invited to contact the appropriate national PAS mentor or the JTC 1 chairperson in case of any difficulty encountered.

JTC 1 further encourages its subsidiary bodies to make use of normative referencing whenever this is deemed appropriate, to bring about market-oriented standards in a timely manner.
