Parallelism TS Editor's Report, post-Rapperswil mailing

N4755 is the proposed working draft of Parallelism TS Version 2. It contains normative changes as directed by the ISO C++ Standards Committee at the 2018 Rapperswil meeting and editorial changes to the Parallelism TS.

N4755 updates the previous draft, N4742, published in the pre-Jacksonville mailing.

N4757 is document N4755 reformatted as a TS document.

Normative Changes

- Apply the proposed wording in P0964R2 (Finding the right set of traits for `simd<T>`).
- Apply the proposed wording in P1111R0 (Resolutions to NB Comments on the Parallelism TS v2).
- Apply the proposed wording in P0820R4 (Feedback on P0214).
- Apply the proposed wording in P1118R0 (Concat and Split on `simd<>` objects).

Editorial Changes

- Transliterated document source to LaTeX.
- Various typographical corrections.
