Implementation Defined Integral Types

Randy Meyers

N698 J11/97-061
May 27, 1997

Sorry this is not N698, which was not available in time for the mailing. I will be distributing N698 before the meeting via the committee email reflector and the committee's FTP site.

Please contact me to request a copy of the paper if you do not receive email from the reflector. I will surface mail you a copy.
