

**Title:** Proposed text for SGFS/N688, clause 5 on Management and Security.

**Source:** JTC1/SGFS Authorized Subgroup Meeting, London, 8-11 December 1992

1. This document proposes changes to SGFS/N688, clause 5

Insert, following 5.1.3, a new sub-clause:

**Management and security interoperability**

OSE specifications of application platforms allow interoperation for management and security purposes between either homogeneous or heterogeneous platform implementations.
