

Title: Resolution on POSIX Profiles
Source: Acting SC22/WG15 - SGFS Liaison Officer
Status: Report, for information
Date: November 1993

The following resolution, adopted by ISO/IEC JTC1/SC22/WG15 during its meeting in Annapolis (MD), October 25-29 1993, is brought to the attention of SGFS:

RESOLUTION 93-257 Profiles to be developed by WG15

Whereas profiles, which reference POSIX standards, are under development within the US, and

Whereas it can be expected that these profiles soon will reach the state at which they can be registered as ISPs, and

Whereas the procedures adopted by the US and SC22/WG15 governing the development and adoption of POSIX Based standards (i.e., synchronization plan, WG15 N352) can apply to ISPs,

Therefore SC22/WG15 instructs its convener to:

- * request SC22 to include the development of ISPs within the scope of SC22/WG15, and

Therefore

- * SC22/WG15 notes that its NP proposals for ISPs will be developed and approved in close cooperation with SGFS and the regional workshops in areas of Profile Identifiers, scope of the profile and taxonomy issues, and
- * SC22/WG15 notes that its ISPs will be consistent with TR10000, and
- * SC22/WG15 recognizes that additional procedures within SC22 and SGFS may be necessary.
