

Title: TR 10000 Editors Report

Source: W. F. Wakker, (interim) editor of TR 10000, parts 1, 2 and 3

Date: August 1997

Following the decisions of the SGFS Plenary meetings in Tokyo (June 1996) and London (May 1997) the following updates have been made to parts 1-3 of TR 10000:

TR 10000 - Part 1:

- Change the notes in 3.1.4 and 5 to reflect the procedures for normative referencing (Tokyo).

TR 10000 - Part 2:

- N1344 (Modifications to TR 10000 taxonomy for new P3 and P7 protocol versions) included (Tokyo)
- N1368 (Revision of Taxonomy for Interactive Manipulation of ODA documents) included (Tokyo)
- Move the FDI taxonomy from part 2 to part 3 to have all medical profile in one part: done (Tokyo)
- N1417 (Proposed methodology for adding specialized profiles to the CGM taxonomy) open pending response from CGM editor
- N1419 (Proposal for DIR changes) included (London)
- Note added to section 1 on placement of non-OSI profiles (London)
- Note added to 5.5.4 on F profiles and TR 10000-3 (London)

TR 10000 - Part 3:

- N1353 (Medical taxonomy): included (Tokyo)
- N1369 (Taxonomy for VT) VT-CP and VT-H included; AVT and FVT remain in part 2 (Tokyo)
- N1379 (TR 10000-3 Taxonomy for POSIX based profiles) include (London)
